Work Experience

Mid-Level Frontend Web Developer - 24G - Remote 06/2020 to Current
- Updated multiple flagship base product spinoffs to their latest versions on several occasions.
- Enhanced user experience by implementing responsive web design and optimizing website performance.
- Streamlined website maintenance tasks for increased efficiency and improved site functionality.
- Developed custom web applications, resulting in tailored solutions for client needs.
- Conducted usability testing using Playwright and incorporated feedback for continuous improvement of user interfaces.
- Resolved technical issues promptly, ensuring minimal disruption to website performance and user satisfaction.
- Provided front-end development support, creating visually appealing designs that aligned with brand standards.
- Collaborated closely with project managers, designers, developers, and quality assurance to meet deadlines.
- Developed user-friendly web forms with validation and error handling.
- Implemented visual testing using Playwright
- Built multiple micro-sites and KPI dashboards for various clients such as Volkswagen and BMW.
- Contributed to company growth by proactively seeking opportunities for improvement in web development processes and technologies; shared knowledge with colleagues to foster a culture of continuous learning.
- Created multiple feature-specific flowcharts for future team members to easily understand how a certain feature works.
- Completed full redesigns of existing websites to improve navigation, enhance visuals, and modernize the products.
- Implemented TypeScript to have a type-safe codebase, enhancing code reliability and maintainability.

Entry-Level Frontend Web Developer - Self-Employed - Memphis, TN 01/2019 to 05/2020
- Created single-page applications for locals who wanted to advertise their businesses.
- Created full-stack applications to teach others about front-end and back-end web development.
- Used HTML, CSS, SCSS, JavaScript, C#, Node.js, and Java to complete university assignments.
